

Md. Mohi Uddin

Full-Stack JavaScript Developer

Khilkhet, Dhaka-1229, Bangladesh | 01770102714 | mohiuddin4296@gmail.com | Portfolio | GitHub | LinkedIn

SUMMARY

Full-Stack JavaScript Developer with 6+ years of experience in Banking IT and Core Banking Systems (CBS) environments. Experienced in supporting enterprise financial systems including transaction processing, regulatory reporting, UAT, and workflow automation. Strong background in backend development, APIs, and database-driven applications. Currently focused on building scalable full-stack applications using Node.js, React, and PostgreSQL, while expanding expertise in modern backend and FinTech-related systems.

EXPERIENCE

Assistant Officer – ICT Division

Feb 2021 – Present

First Security Islami Bank PLC, Dhaka

- Performed Core Banking System (CBS) operations including EOD, EOM, and EOY along with backup and recovery management ensuring system reliability and data integrity
- Coordinated User Acceptance Testing (UAT), resolved system issues, and collaborated with vendors for deployment and support
- Improved SMS module user ID management and enhanced access control by implementing unique ID handling across branch transfers
- Implemented Digital Locker Management System, replacing manual tracking with automated workflow
- Developed Collateral Security Tracking System for FDR, DPS, shares, and real estate improving operational efficiency
- Contributed to BRPD Circular-15 & 5 implementation by automating classified loan reporting in CBS.

Junior Software Engineer

Aug 2019 – Feb 2021

Logical Triangle Limited, Dhaka

- Developed and enhanced web applications based on client requirements
- Rebuilt and optimized Inventory Management ERP using Laravel improving system performance
- Enhanced Pharmaceutical ERP using ASP.NET MVC and RDLC reporting improving data accuracy
- Integrated secure payment systems and appointment booking features in telemedicine platform (HelloDoctor.Asia)
- Developed bilingual web applications using HTML, CSS, JavaScript, SQL, and PHP

SKILLS

Languages: JavaScript (ES6+), SQL, HTML, CSS

Frameworks: React.js, Express.js

Backend: Node.js, REST APIs, JWT Authentication, Passport.js, Express Validator

Databases: PostgreSQL, Oracle Database

Tools: Git, GitHub, Prisma ORM, Postman, Vercel

Learning: TypeScript, Next.js

PROJECTS

Blog API

github.com/Mohiuddin/blog-api-project

- Full-stack blog platform with REST API, admin dashboard, and client frontend
- Built using Node.js, Express, React, PostgreSQL, Prisma ORM
- Implemented authentication, role-based access, and bcrypt password security
- Designed decoupled architecture separating admin and public interfaces

Shopping Cart (Toddler's Outfits)

github.com/Mohiuddin/ShoppingCart

- E-commerce SPA for toddler footwear with advanced cart logic and variants
- Built using React with React Router context-based state management
- Supports dynamic cart system and real-time shipping calculation
- Deployed on Vercel with responsive UI and optimized performance

EDUCATION

B.Sc in Electrical & Electronic Engineering

2019

East West University

Full Stack JavaScript – The Odin Project

(Self-paced, Project-based learning)

CERTIFICATIONS

1. AIBB (Associate of the Institute of Bankers, Bangladesh)
2. JAIBB (Junior Associate of the Institute of Bankers, Bangladesh)
